Core Competencies

We are a precision machine shop with CNC milling and turning equipment, Blanchard grinding, Solidworks and Surfcam 5 Axis software, and engineering support. Our 30,000 sq.ft. manufacturing and office facility has available space to add additional equipment to meet your production needs. We design, fab, and machine all of our work holding equipment to help expedite your first article and production requirements. We offer short to medium production volumes as well as prototype, one of, and reverse engineered parts.

Past Performance

Arvin Meritor
 Arvin Meritor Heavy Vehicle Systems
 AM General Corporation
 CNH
 John Deere
 Modine Mfg.
 Putzmeister
 Racine Railroad Products
 Twin Disc

Differentiators

NB&S provides 24/7 service machining and we incorporate that speed and accuracy into our production work. We can provide machined results on your ISIR samples in 10 working days or less. Our 5 axis machining capabilities and hard turning/milling experience ensures that your difficult parts are machined to print now, when you need them.
